POPULAR PHONE APPS FOR THE VISUALLY IMPAIRED

Be My Eyes
Connects you with volunteers who can assist with visual tasks using your phone's camera.

Seeing AI
Uses artificial intelligence to describe the world around you and identify objects, people, and text.

TapTapSee
Allows you to take a photo of an object and receive an audible description of it.

Color Identifier
Helps you to identify colors using your phone's camera.

KNFB Reader
Converts text into speech or Braille and can read printed materials such as menus, books, and magazines.

Envision AI
Uses AI to read documents, identify objects, and provide a range of other useful features

BlindSquare
Uses GPS to provide detailed information about your surroundings, including points of interest, street names, and directions.
